NO. 14

Wants New Law Annulls.

The recent session of the Legislature passed a law to prohibit the establishment of a negro Industrial school of large proportions in this state. It was aimed at the proposed school at Simpsonville, Shelby county, where the citizens were protesting with their full strength to keep the school from being built there. The new law will be tested in the courts. Meanwhile \$400,000 raised for the building of such school is tied up in the bank.

The people of Kentucky and other southern states don't like to go to school with Negroes, and they don't like to ride on the train with them, and they have accordingly enacted such laws as to prevent such actions. If the people of the North want to do anything for the negroes they should do it across the Ohio river where they are allowed to go to school with the whites, allowed to ride on trains with them and allowed to marry them. They can build their industrial schools over there as well as in Kentucky. No true Kentuckians desire to reside near a thousand negroes alone and be forced to mingle with such a large number. This is a white man's state and the Times believe it should be kept so.

Distributes Seed Corn.

Fred R. Blackburn, member of the Kentucky Board of Agriculture from this Congressional district, has distributed among the farmers of this county a lot of purely bred Boone county white seed corn without cost. Mr. Blackburn is certainly rendering the farmers of his district every aid in his power to further the betterment of their condition. Though a Republican, politics cuts no figure with him, favors are distributed indiscriminately.

Elder Joseph R. Langley, father of Congressman John W. Langley, of this district, died at his home in Floyd county, Tuesday after an illness of several months. Langley has been an invalid for fifteen years as a result of a severe stroke of paralysis. He was a minister of the Christian church and a very worthy man.

Mrs. Wm. Mountz, Sr. and Ellen McKinney were called to Irvine the first of the week to see Mrs. Elizabeth J. Wallace, the former's sister, who had fallen and injured herself. They returned today leaving Mrs. Wallace very much improved.

Eddie Bellis, 17 years old, who has been in failing health for the past year and who had one of his lower limbs amputated some weeks ago, died in this city Monday. Burial in the local graveyard yesterday.

At the regular meeting of the Modern Woodmen Saturday night four new members were initiated. This order though the youngest in the city is just growing to be one of the strongest.

It will be to your interest to see our line of spring and summer suits and odd pants for men and boys before making your purchases. This season's styles are unusually pretty and we can show you all the new colors and cuts and at prices that will interest you. Hardwick & Co., Stanton.

A Serious Mistake.

A great deal is being said about "soulless" corporations, and there is none more heartless than the Cumberland and East Tennessee Telephone corporations which are all just the same.

A representative of these corporations came to Stanton Monday and gobbled up the privilege of erecting their lines over the public roads of the county without the payment of one cent of cash. They asked for this privilege without offering to even open a pay station or put in an exchange in the county. However, upon the protests of some of the citizens present the company was required to put in an exchange at Stanton and to furnish service over the county at the same rates charged at Winchester, and the company given six months to begin work in the county in good faith and twelve months to complete the line to Stanton. Citizens appeared before the members of the court and begged them to require the company to give the people of Powell county a rate as low as in any county in the State and an exchange rate as low as any and to regulate the long distance messages so the rate going out of the county will be no greater than the rate coming into the county. The Court thought different and granted the franchise to their own liking, and the people who use the system hereafter must pay the bill.

The old Bell system has been in Powell county for seven years until right recently and we have a right to know what they will do. While the Clay City franchise regulated and protected the box rent and kept it reasonable the long distance rate has been abused. For instance, when we call up and talk to Louisville it is 70 cents, when Louisville calls up Clay City and talks to us it is 50 cents. We don't think that is fair. It is the East Tennessee lines that do the work for us, not the local exchange. We thought these rates ought to be regulated and think so yet but the Fiscal Court didn't think so, thus the county is in the clutches of a "soulless" corporation to chill us for twenty years.

The rates mentioned are \$1.65 for residence phones and \$2.75 for business phones one and one-half miles from exchange, and 25 cents per mile additional for each phone over five miles from the exchange. This means residence phones ten miles from Stanton must pay \$2.90 per month. The writer wanted the rate adopted the same as the Home phone now charges in this county, \$1.00 for residences and \$2.00 for business houses. The Fiscal Court didn't seem to want so low a rate, and again we say the people who use the phones in the future must pay the bill.

Again, they say we will not use the phone if it is too high. Well enough, but some people will. We say one-third as many people take phones as would with a reasonable rate. One phone at \$1.65 means more money to the company than three phones at

\$1.00. Its the money they are after—the profits. This company doesn't care if the people of Powell county never see a phone just so they make their profit.

The people of Powell county will be justly indignant when they learn what has been done, they may not realize the serious situation now, but when a later day comes and every citizen wants a telephone but finds the price too high they will see.

In Estill county not long since a company wanted the privilege to use the county roads for telephone use but that court used discretion, and advertised a franchise for sale. They regulated the rate to be charged all over the county, required such regulations and restrictions as would safeguard the people's interest and got, we believe, \$200 for this franchise. The court took a number of weeks to do this, but it took its time and got it in fine shape for the people, and as a consequence, we learn the Irvine exchange will have 200 subscribers at the liberal rates secured by the time the lines are completed.

In Powell the whole thing was railroaded through in less than a half day.

One remedy yet remains for the people and that is in the city authorities of Stanton. They can put the necessary restrictions on the company or withhold the city franchise. We believe they will do this, if they will only take time to see what they really can do about the matter.

There is an exclusive franchise held by the Home phone in Clay City and the rates are fixed reasonable. The East Tennessee is thereby shut out of this city. However, under certain restrictions we would be glad to see them open a public station here.

These restrictions must be to give us the lowest possible toll rates out as well as into the city. Our City Council will look after that and the people of Clay City at least will be well protected, and we only wish we could give equal protection to the people of the county, but we cannot. County protection lies with the members of the Fiscal Court.

This article is not written to censure the Fiscal Court, though we have related the facts, but we do believe the Court could have just as easily got the telephone system at a much lower rate which the people should have. We don't doubt their doing what they thought for the best, still we think they didn't give the matter the attention it should have had.

Wanted to Go Fishing.

Judge Benton made a record in the way of a dispatch of business from the bench of the Circuit Court at Stanton, Friday. He wanted to go fishing Saturday, and in order to clear the docket, the record of work was made. Three felony cases were tried and defendants given penitentiary sentences; five separate jury trials of misdemeanor cases, and ten other cases of a similar nature disposed of, and all business was out of the way until Monday. After all the hard work the Judge caught no fish on Saturday.—Winchester Democrat.

Next thing the aviators will be daring Halley's comet for a race through the air.

Of the Massachusetts contest the Louisville Herald, Republican, says: "What is the reason for this astounding change of more than 20,000 vote? Apparently the tariff is primarily to blame. It was made the issue. Senator Lodge entered the district and defended the tariff. His eloquence proved unavailing. The people believe that the tariff is not a fulfillment of the Republican party's promises, and they take this way of expressing their conviction. Their must be another revision—this is the meaning of the election in Massachusetts—a revision that will remove all excuse for blaming high prices upon the tariff. Whether this revision is made by a Republican or a Democrat Congress depends largely upon how the party now in power heads

this warning from the insurgent East."

Having revised the tariff for the past twenty years and always with increases of rates in favor of the "interests" and against the people, the latter, who are in the majority when it comes to voting, ought to make a change at the next election, and indications now are that they will.

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Prest., Buffalo, N. Y.

Locomotor Ataxia

"I suffered intensely from Locomotor Ataxia, and Dr. Miles' Anti-Pain Pills gave me great relief. I have taken them for a long time, and some people say they are not good for me. Well, maybe not, but they relieve my pain and I will take them as long as they continue to do so. Anti-Pain and Nerve and Liver Pills keep me up and I assure you I am thankful for that."

JACOB HIRGEL, Covington, Ind.

Many persons who suffer constantly from chronic diseases, find great relief by the use of Dr. Miles' Anti-Pain Pills, and after several years use, say that they have in no way injured them or created a habit.

The first package will benefit; if not, your druggist will return your money.
